CARBOPREP.EU

**CREATION OF TRAINING MODULES THAT PROVIDE A
HARMONISED STANDARD OF QUALIFICATION IN THE
CAR BODY REPAIR SECTOR**

WELDING

**MECHANICAL
FASTENING**

**ADHESIVE
BONDING**

PROJECT OBJECTIVES:

The Erasmus+ CARBOPREP project aims at avoiding the skills mismatch of the employers of companies involved in car body repair processes.

This will be done by developing an harmonised training course of personnel involved in this activity, focusing on large enterprises and SMEs in different European countries, and to create the European Car Body Repair Technician (ECBRT) curriculum, training materials and examination scheme.

EUROPEAN HARMONISED TRAINING FOR PERSONNEL WORKING WITH CAR BODY REPAIR TECHNOLOGY

PROJECT ACTIVITIES

-  Promotion of linguistic diversity and a standard of training that facilitates the movement of specialists in Europe
-  A qualification that addresses the shortages outlined by industry stakeholders
-  A European curriculum that will increase the transparency of competences and qualifications in the automotive sector

STAKEHOLDERS

- » Automotive OEM car producers
- » Insurance companies
- » Repair garages
- » National bodies/associations for repair
- » International bodies/associations for repair
- » Vocational training providers
